

Department of the Interior,  
General Land Office, Washing-  
ton, D. C. November 22, 1911.  
NOTICE OF RESTORATION OF  
PUBLIC LANDS TO SETTLEMENT  
AND ENTRY.

Notice is hereby given that  
the Acting Secretary of the In-  
terior has vacated departmental  
order of withdrawal in so far as  
the same affects the withdrawal  
for irrigation purposes under the  
act of June 17, 1902 (32 Stat.,  
388), for use in connection with  
the Urton Lake Project, New  
Mexico, of the following-described  
lands in the State of New  
Mexico, and by his authority  
such of said tracts as have not  
been heretofore finally restored  
and are not otherwise with-  
drawn, reserved, or appropriat-  
ed, will be subject to settlement  
under the public land laws of  
the United States on and after  
January 22, 1912, but shall not  
be subject to entry, filing, or se-  
lection until February 21, 1912,  
at the United States land office  
at Fort Sumner, New Mexico,  
warning being expressly given  
that no person will be permitted  
to gain or exercise any right  
whatever under any settlement  
or occupation begun after with-  
drawal from settlement and  
entry and prior to January 22,  
1912, all such settlement or oc-  
cupation being forbidden: Pro-  
vided, that on and after the date  
that the lands become subject to  
settlement the State of New  
Mexico may, if the lands restor-  
ed are subject to such selection,  
select as indemnity in the satis-  
faction of its common school  
grant, not to exceed two sections  
of land in each entire township  
restored, or one section of land  
in each fractional township re-  
stored where the restored area  
therein exceeds five thousand  
acres:

#### THE OTHER FELLOW SAYS

A lawyer charges a man \$10  
for ten minutes conversation.  
The man insists on paying it. A  
doctor charges one dollar for a  
prescription and the patient  
says: "Oh pshaw! Is that  
enough?" An undertaker  
charges \$100 for conducting a  
funeral, and he is just perfectly  
lovely with everybody inside and  
outside the family. A man buys  
a gold brick and apologizes for  
not having bitten before. An  
editor walks a mile in the hot  
sun to get the facts of a death or  
a marriage or a social function  
and spends three hours writing  
it up and tells lies praising peo-  
ple until he hates himself. Then  
if he makes an insignificant  
omission or charges five cents  
straight for three extra copies,  
he is a stingy, careless, good-for-  
nothing cuss who never gets  
anything straight and charges  
four times the price of city pa-  
pers twice the size.—Clovie  
News.

Several times we have been  
impressed by the extreme clev-  
erness, if not liberality, of some  
people in their disposition to ac-  
commodate the public, a disposi-  
tion which the most of us man-  
ifest only sparingly even in re-  
gard to relations with our own  
neighbors and friends. There is  
nothing you can do that will  
make you feel more proud of  
yourself than to do someone a  
good turn. It need not cost  
you a cent in money, and but a  
few steps in trouble, and after  
you have tried it awhile you will  
wonder why you never thought  
of it before. Be neighborly.—  
Hagerman Messenger.

No foreign mail order house  
ever yet donated one cent toward  
a local enterprise, and never  
will, but the home merchant is  
the one who comes across with  
the seeds when the cry is made  
for charity. A consistent old  
world is this, indeed, when peo-  
ple of a town or community will  
select from a northern catalogue  
supplies for their own home, and  
the very next day call on their  
local dealer to help to furnish  
the church or school building.  
But they do it in the name  
of our Lord.

What do you  
as an object les  
tive selling? A farmer in the  
Colorado apple district put a  
card containing his name and  
address in each of the boxes he  
prepared for market. On the e  
cards he wrote, "When you find  
this card please write and tel  
me how much you paid for this  
box of apples." Many answer-  
ed him, saying, \$2.50, \$2.75,  
\$3.00. To each he replied,  
"Thanks, for the information.  
I received 80 cents at this end."  
—Exchange.

Whenever you hear a farmer  
say he does not have time to  
read farm papers nor keep him-  
self posted as to what this coun-  
try is doing, gently lead him

If you have frequent head-  
aches, dizziness and fainting  
spells, accompanied by chills and  
cramps, chilblains, epilepsy and  
jaundice, it is a sign that you  
are not well, but are liable to die  
any minute. Pay your subscrip-  
tion a year in advance and thus  
make yourself solid for a good  
obituary notice.—Exchange.

Georgia has had three govern-  
ors this year and is preparing to  
select a fourth. New Mexico  
had to wait over sixty years for  
the chance to elect one.—Albu-

#### NEW MAP OF NORTH AMERICA

The most notable map publica-  
tion of the large geologic map of  
North America just issued by  
the United States Geological Sur-  
vey. It represents an exception-  
al type of engraving and litho-  
graphic color work and is printed  
in four sheets which fitted to-  
gether and mounted make a map  
6 feet 5 inches high by 5 feet  
wide, the largest piece of work  
ever issued by the Survey. The  
scale is 1 to 5,000,000, or 80 miles  
to the inch, and the plan of pro-  
jection is in harmony with the  
universal word map on a scale of  
1 to 1,000,000, in that it shows  
the units of publication of the  
world map, each of which em-  
braces four degrees of latitude  
and six degrees of longitude.

Not only will the geologic map  
of North America be indispens-  
able as a wall map in colleges  
and schools where geology is  
taught, but each student will de-  
sire a copy for the study of  
broader problems in a real and  
regional geology and will wish  
to carry a folded copy on rail-  
road trips across the continent.

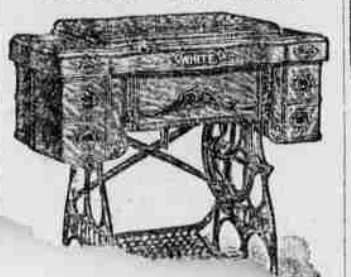

This map is now on sale by the  
United States Geological Survey  
at the nominal price of 75 cents  
each. It is safe to assume that  
any private map-publishing  
house would charge \$5 to \$10 a  
copy for such a map.

In 1906 lightning killed only

One's chances on death by light-
